

# Texas State of Wine

Texas has an international reputation as a state that appreciates wine. There isn't a wine region in the world that doesn't want to pour their wines for Texans. Texas has grown to become the fifth largest state in the U.S. for growing vineyards and producing wine. Over 1.6 million visitors came to Texas wineries last year. Many of those visitors come from outside the state as the wineries' reputation grows for quality wine, beautiful properties, southern hospitality, and warm weather year round. Wineries celebrate throughout the year with special tastings, festivals, wine immersion experiences, tours, music and more.
